REGULATORY DIVISION

Refer to: P/N #2013-00138-2R (Revised)

April 9, 2013

BP Amoco Chemical Company

To perform maintenance dredging with on-site upland disposal.

The public notice issued for this project on March 13, 2013, included an on-site upland disposal area. The applicant has requested to move the disposal site to a location southeast of the originally proposed site as shown on the attached aerial photo. The applicant has stated that the rationale for moving the disposal site includes the following:

1. The new proposal is more distant from Grove Creek.
2. The pipeline route is shorter, more direct (fewer bends), and would not encroach on the facility recreational area.
3. There is more available space for construction the confined disposal facility (CDF) if it is needed.
4. This is the previously approved location as used in 1997.

Written comments for the proposed modification will be received by:

CHARLESTON DISTRICT, CORPS OF ENGINEERS  
69A Hagood Avenue  
Charleston, South Carolina 29403-5107

and the

THE S.C. DEPARTMENT OF HEALTH AND ENVIRONMENTAL CONTROL
