

**U.S. Army Corps of Engineers - Charleston District
Checklist for 2007 Nationwide Permit Review
Nationwide Permit 6**

**Survey Activities
(Section 10/Section 404)**

SAC#: _____

Applicant Name: _____

Waterway/Location: _____

Project Name: _____

1. Is the activity for survey activities including core sampling, seismic exploratory operations, plugging of seismic shot holes and other exploratory-type boreholes, exploratory trenching, soil surveys, sampling, and historic resources surveys?

Yes No
2. If the activity is for exploratory trenching, will the activity involve mechanical land clearing of the upper soil profile to expose bedrock or substrate, for the purpose of mapping or sampling the exposed material?

Yes No
3. Will the area be restored to pre-construction elevation upon completion of the work? If the area is in wetlands, will the top 6 to 12 inches of the trench be backfilled with topsoil from the trench?

Yes No
4. Is the activity for a discharge or structure associated with the recovery of historic resources?

Yes No
5. Does the activity consist of drilling and/or the discharge of material for test wells for oil and gas exploration?¹

Yes No
6. If the activity involves the construction of temporary pads, will the discharge exceed 25 cubic yards of fill material?

Yes No
7. Does the activity involve a discharge of fill material placed for roads or other similar activities?

Yes No

8. Does the activity involve any type of permanent structure?

Yes No

9. Are all of the applicable NWP General and Regional Conditions satisfied, including, endangered species, and cultural resources, and if any Federally listed species and/or designated critical habitat occurs in the action area, have you made an effect determination and properly documented it in the administrative record?

Yes No

TO QUALIFY FOR THE NWP, UNLESS OTHERWISE NOTED, EVERY NUMBERED ITEM MUST HAVE A CHECKED BOX .

¹ The plugging of test wells is authorized by this permit.
