LTC Todd Mainwaring
Commander, Charleston District
U.S. Army Corps of Engineers
69A Hagood Avenue, Charleston, SC 29403

Re: NFS Letter of Support for Waccamaw River FRM Study Recommended Plan for Implementation

Dear LTC Mainwaring:

This letter is written to express Horry County's support for implementation of the Recommended Plan from the Waccamaw River FRM Study.

As the Non-Federal Sponsor (NFS), Horry County understands that we will be responsible for cost sharing 35% of the project if Federal funding for final design and construction is authorized and appropriated by Congress.

Should federal funding be authorized and appropriated by Congress, Horry County likewise understands that our financial commitment towards implementation of either or both separable elements of the Recommended Plan will become binding upon execution of a Project Partnership Agreement between USACE and Horry County.

Sincerely,

A handwritten signature in blue ink that reads "Barry Spivey". The signature is fluid and cursive.

Barry Spivey
Horry County Administrator
