

**US Army Corps  
of Engineers**  
Charleston District

19 March 2024

## **Program Fact Sheet**

### **Support to Defense Logistics Agency (DLA)**

---

#### **PROJECT DESCRIPTION AND LOCATION**

Charleston District provides support to 3 DLA Installation Management activities - Distribution, Disposition, and Energy.

DLA Distribution has 22 CONUS (including Pearl Harbor, HI) and 5 OCONUS distribution centers located worldwide. Their facilities footprint includes 60M square feet in 11,000 buildings. DLA Distribution is the leading provider of global distribution support to America's military, including receiving, storing, and issuing supplies, as well as other tailored services to increase Warfighter readiness. DLA Installation Management for Distribution, located in New Cumberland, PA, provides environmental protection, equipment management, facilities engineering, industrial engineering, and public safety support functions in an effective, efficient and timely manner within regulatory guidelines to DLA Distribution. In 2009, DLA Installation Management for Distribution reached out to Charleston District to provide single-door access to USACE for support of their SRM (Sustainment, Repair, and Maintenance) work, including overhaul of fire suppression systems throughout their CONUS footprint. DLA Disposition serves the military in 16 foreign countries, 2 U.S. territories (Guam and Puerto Rico), and 41 states and disposes of excess property received from military services, first offered for reutilization within the Department of Defense (DoD), transfer to other federal agencies, or donation to state and local governments and other qualified organizations. DLA Installation Management for Disposition, located in Battle Creek, MI, coordinated with Charleston District in 2017 through DLA Installation Management for Distribution to provide Facility Investment Services (FIS) support at installations where Distribution and Disposition were co-located. More recently, DLA Installation Management for Disposition has tasked Charleston District to provide SRM support at specific Disposition facilities.

DLA Energy is located worldwide and provides the Department of Defense and other government agencies with comprehensive energy solutions and support for fuel and energy related operations. DLA Installation Management for Energy is located at Fort Belvoir, VA. Since 2011, Charleston District has provided Cathodic Protection (CP) support at multiple Army sites (CONUS and OCONUS) where DLA fuel tanks and systems are located. Charleston District provides in-house and contracted survey and repair support for installed CP equipment and systems.

Goods and services provided by Charleston District include project management, contract award and administration, design (both in-house and A/E), technical support and construction management.

#### **STATUS**

As of 12 Mar 2024 - Charleston District is currently executing work for DLA Installation Management for Distribution, Disposition and Energy at assigned CONUS and OCONUS (CP only) locations. Program execution includes planning, design services, and construction and service contract awards on a national and international level. The scope of supported work includes SRM, Fire Protection, Facility Investment Services (FIS), Cathodic Protection (CP) improvements, maintenance and repairs consistent with the respective missions. FIS support

includes regularly scheduled preventative maintenance, services calls, and task order responses for small repairs.

Current execution forecast for FY24 is \$50M.

### **FUTURE ACTIVITIES**

Charleston District will continue to provide support to DLA Installation Management for Distribution, Disposition, and Energy on an annual basis. Projected workload in FY24 and outyears is \$50M annually for SRM, Fire Protection, Cathodic Protection, and Facilities Investment Services (FIS) support.
