

**US Army Corps
of Engineers**
Charleston District

Program Fact Sheet

Support To Joint Base Charleston

Program Description and Location:

The Joint Base Charleston (JBC) community encompasses more than 20,000 active-duty, reserve and civilian personnel, located on the Air Base and the Weapons Station which together makeup 20,400 acres. Personnel at the Air Base, Weapons Station, the local community and the Department of Defense believe Joint Basing is the stepping stone to making Charleston a Joint Logistics, Transportation and Engineering Hub and the worldwide leader in moving people, vehicles, munitions, and supplies via air, land, sea, and rail.

Joint Base Charleston is unique with over 53 tenants. Joint Base Charleston is comprised of Air Force, Navy, Army, Marine Corps, Coast Guard, Homeland Security, and other DOD missions - all working together in the global fight against terrorism

Program Current Status:

As of 21 Nov 2019 - In FY 19 we awarded 16 projects at JBC with customers including Naval Information Warfare Command (NIWC), the Surface Deployment and Distribution Command (SDDC), Naval Health Clinic Charleston (NHCC), the Naval Consolidated Brig, Joint Base Charleston (JBC) and the Nuclear Power Training Unit (NPTU). Total awards amounted to \$21M.

Significant projects include the following:

- \$61M Visitors Quarters building, a new construction 266 room hotel.
- \$16.2M Water Intrusion Repairs at NHCC.
- \$9M Temporary Lodging Facility, new construction 16 unit apartments.
- \$3.1M Lighting Repairs at JBC.
- \$2.3M Repair Building 3410 at NIWC.
- \$3.4M Repair Various Buildings at JBC (Short Stay).
- \$1.7M Repair Building 3414 at NIWC.
- \$2.7M HVAC Repairs at NHCC.

The FY 20 workload is projected to be higher than average once again. We are working towards the projected award of a \$8M project to repair TC Wharf for SDDC and multiple construction contracts for Brig, NHCC, and JBC. Overall, the FY20 workload is projected to be approximately 12 contract awards valued at \$19M. Of note, we are adding Coast Guard as a customer by replacing a roof at USCG Station Georgetown, SC.

Future Activities:

Charleston District will continue to provide support to JBC on an annual basis as workload and funding is provided from the customer. SRM budgets are estimated to remain similar. The FY21 program is expected to be similar to the FY16 Program (20 projects valued at \$7M).
