**Authority:**

**Location Description:** The former Stark Army Hospital was located in North Charleston, South Carolina, approximately 6.25 miles northwest of Charleston, SC.

**Project Description:** This Stark Army Hospital was an active hospital and rehabilitation center during World War II. The installation was operational from 1941 until 1945. In October 1945, the installation was turned over to the Charleston County Board of Control for local use. The area adjacent to buildings T-615N and T-615S is now utilized by commercial and industrial development. The site is located on the north shore of the Ashley River. In 1995, two heating oil underground storage tanks (USTs) 615N and 615S were removed from the site. An investigation found no petroleum hydrocarbons in the groundwater exceeding regulatory levels. However, the presence of chlorinated volatile organic compounds (trichloroethylene - TCE) was identified above screening levels.

**Current Status:** As of 15 Apr 2019 - The Remedial Investigation (RI) field work was completed in March 2015. The RI report is being revised to address comments from SCDHEC. Additional field work is scheduled to be conducted in FY19 to address SCDHEC concerns. The RI/FS report is anticipated to be completed in FY19. The Proposed Plan (PP) and the Decision Documentare anticipated to be completed/approved in FY20. FUDS Program Management for this region (GA, SC and NC) is supported through Savannah District. Support to specific FUDS projects in SC is currently supported through Wilmington District.

**FY20 Capability:** Stark Hospital: FY19 Budget: Project 02 (HTRW): \$80.9K in-house funding; \$0 contract funding. FY20 funding anticipated: \$100k in-house funding; \$0 contract funding.

**Sponsor:** NA
