

**US Army Corps
of Engineers**
Charleston District

Program Fact Sheet

Support to the 81st Readiness Division (RD)

**Program Description
and Location:**

The Headquarters of the 81st Readiness Division (RD) is located in Columbia, SC on Fort Jackson. The 81st RD provides essential customer care and facility services to Soldiers, Civilians and their Families in the Southeast Region of the United States and Puerto Rico. This enables their supported Commanders and leaders to maximize resources and meet global requirements. The 81st RD has a need for recurring Preventive Maintenance/Facility Investment and Municipal services for their facilities at over 300 sites (totaling over 700 building structures) located in 9 Southeastern states and Puerto Rico.

**Program Current
Status:**

Currently in FY20, Charleston District is executing construction of 170 contracts, contract options, and task orders in support of the 81st RD's recurring facility maintenance program at a total cost of \$19M that were awarded in FY19. Additionally, Sustainment, Restoration, and Modernization (SRM) construction projects were awarded in the amount of over \$14M. Thus, over \$33M awarded in FY19 in support for 81st RD facilities are now in process in FY20.

Future 81st RD program years are expected to stay consistent at \$33M to \$35M with recurring services and repairs. This estimate includes continuous emergency hurricane, tornado, and now expected COVID-19 responses that consistently add annual cost for repairs (Hurricane/Tornado) and cleaning (COVID-19).

Future Activities:

Charleston District will continue to provide support to 81st RD on an annual basis as workload and funding is provided from the customer.

Anticipated FY20 Execution: \$33M

Anticipated FY21 Execution: \$35M.
