Charleston District

Project Fact Sheet

FUDS - Stark General Hospital

Charleston, SC

P2#: 405349

Congressional Districts: Nancy Mace (SC-01)

Appropriation: FUDS

Phase: N/A

Business Line: N/A

Authority:

Location The Stark Army Hospital was in North Charleston, South Carolina, approximately 6.25 miles northwest of Charleston, SC.

Project This Stark Army Hospital was an active hospital and rehabilitation center during World War II. The installation was operational from 1941 until 1945. In October 1945, the installation was turned over to the Charleston County Board of Control for local use. The area adjacent to buildings T-615N and T-615S is now utilized by commercial and industrial development. The site is located on the north shore of the Ashley River. In 1995, two heating oil underground storage tanks (USTs) 615N and 615S were removed from the site. An investigation found no petroleum hydrocarbons in the groundwater exceeding regulatory levels. However, the presence of chlorinated volatile organic compounds (trichloroethylene - TCE) was identified above screening levels.

Status The Remedial Investigation (RI) field work was completed in March 2015. USACE is conducting additional field work for the RI to address comments from SCDHEC on the RI report. USACE anticipates the RI report will be completed in FY20. Subsequent phases (Feasibility Study, Proposed Plan, Decision Document) will be conducted upon completion of the RI report. Project 02: USACE installed additional monitoring wells in January 2021 and conducted groundwater sampling events in January and March 2021. USACE will incorporate this additional data into the RI report and the tentative schedule for RI report submittal is September 2021. Subsequent phases will be conducted upon completion of the RI report.
