APPROVED JURISDICTIONAL DETERMINATION FORM (INTERIM)
NAVIGABLE WATERS PROTECTION RULE

I. ADMINISTRATIVE INFORMATION

Completion Date of Approved Jurisdictional Determination (AJD): December 10, 2020

ORM Number: SAC-2019-01931

Associated JDs: N/A

Review Area Location¹:

State: SC City: John's Island County: Charleston County

Center Coordinates of Review Area: Latitude 32.7491 Longitude -80.0357

II. FINDINGS

A. Summary: Check all that apply. At least one box from the following list **MUST** be selected. Complete the corresponding sections/tables and summarize data sources.

- The review area is comprised entirely of dry land (i.e., there are no waters or water features, including wetlands, of any kind in the entire review area). Rationale: N/A.
- There are "navigable waters of the United States" within Rivers and Harbors Act jurisdiction within the review area (complete table in section II.B).
- There are "waters of the United States" within Clean Water Act jurisdiction within the review area (complete appropriate tables in section II.C).
- There are waters or water features excluded from Clean Water Act jurisdiction within the review area (complete table in section II.D).

¹ Map(s)/Figure(s) are attached to the AJD provided to the requestor.

² If the navigable water is not subject to the ebb and flow of the tide and included on the District's list of Rivers and Harbors Act Section 10 navigable waters list, do NOT use this document to make the determination. The District must continue to follow the procedure outlined in 33 CFR part 329.14 to make a Rivers and Harbors Act Section 10 navigability determination.

³ A stand-alone TNW determination is completed independently of a request for an AJD. A stand-alone TNW determination is conducted for a specific segment of river or stream or other type of waterbody, such as a lake, where independent upstream or downstream limits or lake borders are established. A stand-alone TNW determination should be completed following applicable guidance and should NOT be documented on the AJD form.

⁴ Some excluded waters, such as (b)(2) and (b)(4), may not be specifically identified on the AJD form unless a requestor specifically asks a Corps district to do so. Corps Districts may, in case-by-case instances, choose to identify some or all of these waters within the review area.

⁵ Because of the broad nature of the (b)(1) exclusion and in an effort to collect data on specific types of waters that would be covered by the (b)(1) exclusion, four sub-categories of (b)(1) exclusions were administratively created for the purposes of the AJD Form. These four sub-categories are not new exclusions, but are simply administrative distinctions and remain (b)(1) exclusions as defined by the NWPR.

D. Excluded Waters or Features

Excluded waters ((b)(1) – (b)(12))⁴:

Exclusion Name	Exclusion Size	Exclusion ⁵	Rationale for Exclusion Determination
Wetlands A	0.61 acre	(b)(1) Non-adjacent wetland	Wetlands A does not abut and is not inundated by an (a)(1)-(3) water. Additionally, Wetlands A is physically separated from an (a)(1)-(3) water by multiple physical, man-made barriers (berms, roads, etc.) Wetland 1 is completely encompassed entirely by uplands and lacks a direct or indirect surface connection to (a)(1)-(3) waters.
Wetlands B	0.33 acre	(b)(1) Non-adjacent wetland	Wetlands B does not abut and is not inundated by an (a)(1)-(3) water. Additionally, Wetlands B is physically separated from an (a)(1)-(3) water by multiple physical, man-made barriers (berms, roads, etc.) Wetland 1 is completely encompassed entirely by uplands and lacks a direct or indirect surface connection to (a)(1)-(3) waters.
Wetlands C	0.03 acre	(b)(1) Non-adjacent wetland	Wetlands C does not abut and is not inundated by an (a)(1)-(3) water. Additionally, Wetlands C is physically separated from an (a)(1)-(3) water by multiple physical, man-made barriers (berms, roads, etc.) Wetland 1 is completely encompassed entirely by uplands and lacks a direct or indirect surface connection to (a)(1)-(3) waters.

C. Additional comments to support AJD:

The area in review contains 12.25 acres and includes three excluded waters. Wetlands A-C are completely encompassed by uplands and lack a direct or indirect surface connection to (a)(1)-(3) waters. Wetlands B & C continue offsite to the south where they are physically separated from the nearest (a)(1)-(3) water by a road (Maybank Highway). Since, Wetlands A-C do not abut an (a)(1)-(3) water, are not inundated by an (a)(1)-(3) water and are physically separated by more than a single artificial barrier, they are determined to be non-jurisdictional.
