REGULATORY PROGRAM
APPROVED JURISDICTIONAL DETERMINATION FORM (INTERIM)
NAVIGABLE WATERS PROTECTION RULE

I. ADMINISTRATIVE INFORMATION

Completion Date of Approved Jurisdictional Determination (AJD): January 20, 2021

ORM Number: SAC-2020-00561

Associated JDs: N/A

Review Area Location¹:

State: SC City: Columbia County: Richland County

Center Coordinates of Review Area: Latitude 34.01045 Longitude -80.6828

II. FINDINGS

A. Summary: Check all that apply. At least one box from the following list **MUST** be selected. Complete the corresponding sections/tables and summarize data sources.

- The review area is comprised entirely of dry land (i.e., there are no waters or water features, including wetlands, of any kind in the entire review area). Rationale: The entire review area is comprised of uplands and does not contain any aquatic resources.
- There are “navigable waters of the United States” within Rivers and Harbors Act jurisdiction within the review area (complete table in section II.B).
- There are “waters of the United States” within Clean Water Act jurisdiction within the review area (complete appropriate tables in section II.C).
- There are waters or water features excluded from Clean Water Act jurisdiction within the review area (complete table in section II.D).

¹ Map(s)/Figure(s) are attached to the AJD provided to the requestor.

² If the navigable water is not subject to the ebb and flow of the tide and included on the District's list of Rivers and Harbors Act Section 10 navigable waters list, do NOT use this document to make the determination. The District must continue to follow the procedure outlined in 33 CFR part 329.14 to make a Rivers and Harbors Act Section 10 navigability determination.

³ A stand-alone TNW determination is completed independently of a request for an AJD. A stand-alone TNW determination is conducted for a specific segment of river or stream or other type of waterbody, such as a lake, where independent upstream or downstream limits or lake borders are established. A stand-alone TNW determination should be completed following applicable guidance and should NOT be documented on the AJD form.

⁴ Some excluded waters, such as (b)(2) and (b)(4), may not be specifically identified on the AJD form unless a requestor specifically asks a Corps district to do so. Corps Districts may, in case-by-case instances, choose to identify some or all of these waters within the review area.

⁵ Because of the broad nature of the (b)(1) exclusion and in an effort to collect data on specific types of waters that would be covered by the (b)(1) exclusion, four sub-categories of (b)(1) exclusions were administratively created for the purposes of the AJD Form. These four sub-categories are not new exclusions, but are simply administrative distinctions and remain (b)(1) exclusions as defined by the NWPR.

III. SUPPORTING INFORMATION

A. Select/enter all resources that were used to aid in this determination and attach data/maps to this document and/or references/citations in the administrative record, as appropriate.

- Information submitted by, or on behalf of, the applicant/consultant: Murray Tract, Jurisdictional Determination Request, dated April 16, 2020 and “Upland Approved Jurisdictional Map,” dated January 19, 2020.
This information is sufficient for purposes of this AJD.
Rationale: The submitted information, with confirmation of findings during a Corps site visit, is sufficient to document that the entire review area is comprised of uplands and does not contain any aquatic resources.
- Data sheets prepared by the Corps: N/A
- Photographs: 1-26 of 26 provided by consultant, dated March 6, 2020; 2019 Aerial, ESRI World Imagery/ARCGIS MAPSERVICE image provided by consultant.
- Corps Site visit(s) conducted on: July 21, 2020.
- Previous Jurisdictional Determinations (AJDs or PJDs): N/A
- Antecedent Precipitation Tool: N/A
- USDA NRCS Soil Survey: NRCS SSURGO, Richland County, provided by consultant.
- USFWS NWI maps: USFWS NWI Map Service layer overlain on 2019 aerial, provided by consultant.
- USGS topographic maps: Eastover Quad, USGS Topographical Map/ARCGIS MAPSERVICE accessed 2/19/2020, provided by consultant.
