B. REQUIRED ADDITIONAL COMMENTS TO SUPPORT JD. EXPLAIN RATIONALE FOR DETERMINATION THAT THE REVIEW AREA ONLY INCLUDES DRY LAND:

¹ This form is for use only in recording approved JDs involving dry land. It extracts the relevant elements of the longer approved JD form in use since 2007 for aquatic areas and adds no new fields.

Based on an off-site review of aerial photography, topographic maps, National Wetlands Inventory maps, soil survey information, Wetland Determination Data Form(s), and the data sheets provided by S&ME Consultants, this office has determined that the referenced 2 acre project site, as shown on the referenced plat, does not contain any aquatic resources, including aquatic resources that would be subject to regulatory jurisdiction under Section 404 of the CWA or Section 10 of the RHA.
