

DRY LAND APPROVED JURISDICTIONAL DETERMINATION FORM¹
U.S. Army Corps of Engineers

This form should be completed by following the instructions provided in Section IV of the JD Form Instructional Guidebook.

SECTION I: BACKGROUND INFORMATION

A. REPORT COMPLETION DATE FOR APPROVED JURISDICTIONAL DETERMINATION (JD): June 15, 2020

B. DISTRICT OFFICE, FILE NAME, AND NUMBER: CESAC-RDE, SAC-2020-00519 William Norton III Single-Family Reconstruction

C. PROJECT LOCATION AND BACKGROUND INFORMATION:

State: South Carolina County/parish/borough: Marion City: Gresham
Center coordinates of site (lat/long in degree decimal format): Lat. 33.8628°N, Long. -79.2638°W
Universal Transverse Mercator:
Name of nearest waterbody: Dill Lake
Name of watershed or Hydrologic Unit Code (HUC): 0304020408 Lower Little Pee Dee River

- Check if map/diagram of review area is available upon request.
 Check if other sites (e.g., offsite mitigation sites, disposal sites, etc...) are associated with this action and are recorded on a different JD form.

D. REVIEW PERFORMED FOR SITE EVALUATION (CHECK ALL THAT APPLY):

- Office (Desk) Determination. Date:
June 12, 2020
 Field Determination. Date(s):

SECTION II: SUMMARY OF FINDINGS

A. RHA SECTION 10 DETERMINATION OF JURISDICTION.

There are **no** "navigable waters of the U.S." within Rivers and Harbors Act (RHA) jurisdiction (as defined by 33 CFR part 329) in the review area.

B. CWA SECTION 404 DETERMINATION OF JURISDICTION.

There are **no** "waters of the U.S." within Clean Water Act (CWA) jurisdiction (as defined by 33 CFR part 328) in the review area.

SECTION III: DATA SOURCES.

A. SUPPORTING DATA. Data reviewed for JD (check all that apply - checked items shall be included in case file and, where checked and requested, appropriately reference sources below):

- Maps, plans, plots or plat submitted by or on behalf of the applicant/consultant: Map prepared by The South Carolina Department of Administration dated April 8, 2020 entitled Location Map / SC-HM16-04709 / 2989 Dill Lake Ct / Gresham, SC 29546 / 33.862821, -79.263824".
 Data sheets prepared/submitted by or on behalf of the applicant/consultant.
 Office concurs with data sheets/delineation report.
 Office does not concur with data sheets/delineation report.
 Data sheets prepared by the Corps:
 U.S. Geological Survey Hydrologic Atlas:
 USGS NHD data.
 USGS 8 and 12 digit HUC maps. 0304020408 Lower Little Pee Dee River
 U.S. Geological Survey map(s). Cite scale & quad name: Snow Island (topo map does not depict any aquatic resources within the review area. Dill Lake is depicted just north of the review area.)
 USDA Natural Resources Conservation Service Soil Survey. Citation: Smithboro (Partially hydric with only 1-2 percent of the soil component considered hydric).
 National wetlands inventory map(s). Cite name: PFO4C (Palustrine, Forested, Freshwater, Wetland)
 State/Local wetland inventory map(s):
 FEMA/FIRM maps:
 100-year Floodplain Elevation is: (National Geodetic Vertical Datum of 1929)
 Photographs: Aerial (Name & Date): Google Earth Pro, SAC Regulatory Viewer
 Other (Name & Date):
 Previous determination(s). File no. and date of response letter:
 Applicable/supporting case law:
 Applicable/supporting scientific literature:
 Other information (please specify):

B. REQUIRED ADDITIONAL COMMENTS TO SUPPORT JD. EXPLAIN RATIONALE FOR DETERMINATION THAT THE REVIEW AREA ONLY INCLUDES DRY LAND: This 0.10 acre project site is located within a partially-developed residential lot that currently houses a home and a small section of uplands around the domicile. Dill Lake borders the northern property boundary. However, Dill Lake is outside of the review area.

¹ This form is for use only in recording approved JDs involving dry land. It extracts the relevant elements of the longer approved JD form in use since 2007 for aquatic areas and adds no new fields.

Aerial imagery from 2003-2019 and recent site photos support that this project site is uplands with no aquatic resources within the project boundaries. Site pictures submitted by the applicant's consultant clearly show the project area as uplands maintained as a residence / residential yard.

Data sources: SAC-Regulatory Viewer USGS Topographic maps depict the site as uplands. SAC-Regulatory Viewer USDA / NRCS Georgetown County soil survey depicts Smithboro silt loam (Partially Hydric) within the project site. SAC-Regulatory Viewer NWI maps depict the site as palustrine wetlands (PF04C).

This site was assessed on a single basis form per the provided site information and maps and determined to consist entirely of uplands.
