APPROVED JURISDICTIONAL DETERMINATION FORM (INTERIM)
NAVIGABLE WATERS PROTECTION RULE

I. ADMINISTRATIVE INFORMATION

Completion Date of Approved Jurisdictional Determination (AJD): 10-MAY-2021
ORM Number: SAC-2021-00810
Associated JDs: SAC-2018-00053
Review Area Location¹: located within the grounds of an existing county airport
State: SC City: Conway County: Horry County
Center Coordinates of Review Area: Latitude 33.7563 Longitude -78.8983

II. FINDINGS

A. Summary: Check all that apply. At least one box from the following list **MUST** be selected. Complete the corresponding sections/tables and summarize data sources.

- The review area is comprised entirely of dry land (i.e., there are no waters or water features, including wetlands, of any kind in the entire review area). Rationale: The site does not contain any aquatic resources, including aquatic resources that would be subject to regulatory jurisdiction under Section 404 of the CWA or Sections 9 and 10 of the RHA.
- There are “navigable waters of the United States” within Rivers and Harbors Act jurisdiction within the review area (complete table in section II.B).
- There are “waters of the United States” within Clean Water Act jurisdiction within the review area (complete appropriate tables in section II.C).
- There are waters or water features excluded from Clean Water Act jurisdiction within the review area (complete table in section II.D).

¹ Map(s)/Figure(s) are attached to the AJD provided to the requestor.

² If the navigable water is not subject to the ebb and flow of the tide and included on the District's list of Rivers and Harbors Act Section 10 navigable waters list, do NOT use this document to make the determination. The District must continue to follow the procedure outlined in 33 CFR part 329.14 to make a Rivers and Harbors Act Section 10 navigability determination.

³ A stand-alone TNW determination is completed independently of a request for an AJD. A stand-alone TNW determination is conducted for a specific segment of river or stream or other type of waterbody, such as a lake, where independent upstream or downstream limits or lake borders are established. A stand-alone TNW determination should be completed following applicable guidance and should NOT be documented on the AJD form.

⁴ Some excluded waters, such as (b)(2) and (b)(4), may not be specifically identified on the AJD form unless a requestor specifically asks a Corps district to do so. Corps Districts may, in case-by-case instances, choose to identify some or all of these waters within the review area.

⁵ Because of the broad nature of the (b)(1) exclusion and in an effort to collect data on specific types of waters that would be covered by the (b)(1) exclusion, four sub-categories of (b)(1) exclusions were administratively created for the purposes of the AJD Form. These four sub-categories are not new exclusions, but are simply administrative distinctions and remain (b)(1) exclusions as defined by the NWPR.

III. SUPPORTING INFORMATION

A. Select/enter all resources that were used to aid in this determination and attach data/maps to this document and/or references/citations in the administrative record, as appropriate.

- Information submitted by, or on behalf of, the applicant/consultant: “No Permit Required” (NPR) Letter Conway-Horry County Airport (HWY) Runway Rehabilitation,” submittal dated May 5, 2021, submitted by the JMT on behalf of Horry County.
This information is sufficient for purposes of this AJD.
Rationale: Wetland data forms and information included in the original submittal are considered to be a reasonable representation of site conditions at the time of collection.
Data sheets prepared by the Corps: *N/A*
- Photographs: Site photos titled “Conway-Horry County Airport (HYW) Runway Rehabilitation Representative Site Photographs,” and dated March 10, 2021 and April 26, 2021, submitted by JMT. Aerial photographs provided by JMT with original submittal. All photos depict an existing / functioning county airport with no signatures of potential aquatic resources. USGS National Map 3D Elevation Program (3DEP) published August 13, 2020.
Corps Site visit(s) conducted on: *N/A*
- Previous Jurisdictional Determinations (AJDs or PJDs): Approved Jurisdictional Determination SAC-2018-00053 – Larger AJD covering more portions of the airport
Antecedent Precipitation Tool: *N/A*
- USDA NRCS Soil Survey: NRCS Soil Survey Geographic Database (SSURGO) created 4 Apr 2019 and updated 26 Aug 2020. ESRI Map Service depicts the soil types (hydric) Bladen, Eulonia, Meggett, Wahee, and Yauhannah.
- USFWS NWI maps: USFWS NWI Map Service dated May 29, 2012, updated July 17, 2020. USFWS NWI Maps depict the site as uplands
- USGS topographic maps: USGS 7.5 Minute Index (Dongola and Conway Quads). Topographic map depicts a County airport consisting of uplands.

C. Additional comments to support AJD: The review area contains 48.97 acres of uplands, devoid of aquatic resources. The entire review area is located within the existing runway and amenities. SAC-2018-00053 is a previous AJD issued for the site which this is a subset based on the reduced scope of the request. 4335
