 National wetlands inventory map(s). Cite name: Upland  
 State/Local wetland inventory map(s):  
 FEMA/FIRM maps:  
 100-year Floodplain Elevation is: (National Geodetic Vertical Datum of 1929)  
 Photographs:  Aerial (Name & Date): National Regulatory Viewer – SAD, Google Earth Pro  
  Other (Name & Date): Photographs submit by the consultant on May 25, 2021.  
 Previous determination(s). File no. and date of response letter:  
 Applicable/supporting case law:  
 Applicable/supporting scientific literature:  
 Other information (please specify):

**B. REQUIRED ADDITIONAL COMMENTS TO SUPPORT JD. EXPLAIN RATIONALE FOR DETERMINATION THAT THE REVIEW AREA ONLY INCLUDES DRY LAND:** The review area assessed on this form is comprised entirely of dryland. Utilizing the best available information, to include soil survey information, NWI maps, topographic maps, hillshade, and DEP maps (LiDAR), the Corps determined that the site did not contain any jurisdictional aquatic resources. There are no wetlands and/or tributaries depicted on topographic

<sup>1</sup> This form is for use only in recording approved JDs involving dry land. It extracts the relevant elements of the longer approved JD form in use since 2007 for aquatic areas and adds no new fields.

maps. The soils depicted on soil survey information indicate the presence of Duplin soil which is considered non-hydric. Furthermore, NWI maps suggest the site is uplands.
