¹ This form is for use only in recording approved JDs involving dry land. It extracts the relevant elements of the longer approved JD form in use since 2007 for aquatic areas and adds no new fields.

 Other information (please specify): Corps has consulted Google aerial imagery and RegViewer LIDAR imagery.

B. REQUIRED ADDITIONAL COMMENTS TO SUPPORT JD. EXPLAIN RATIONALE FOR DETERMINATION THAT THE REVIEW AREA ONLY INCLUDES DRY LAND: Based upon the information provided by the consultant in the A/D request, aerial photography, soil survey mapping, LIDAR imagery and NWI mapping, the Corps has determined that there are no aquatic resources located within this 12.7- acre project area. Therefore, there are no areas within this project boundary that are considered to be waters of the U.S. or are within the jurisdiction of the Clean Water Act.
