**B. REQUIRED ADDITIONAL COMMENTS TO SUPPORT JD. EXPLAIN RATIONALE FOR DETERMINATION THAT THE REVIEW AREA ONLY INCLUDES DRY LAND:** The site has a non-jurisdictional concrete flume that was determined to be non-jurisdictional in a jurisdictional determination for a large tract that included a portion of this site (SAC-2016-00863, dated 09/27/2016). This feature appears to be a storm drainage channel built to direct storm water runoff into an offsite pond. This site consist entirely of uplands.

<sup>1</sup> This form is for use only in recording approved JDs involving dry land. It extracts the relevant elements of the longer approved JD form in use since 2007 for aquatic areas and adds no new fields.
