REGULATORY PROGRAM  
APPROVED JURISDICTIONAL DETERMINATION FORM (INTERIM)  
NAVIGABLE WATERS PROTECTION RULE

**I. ADMINISTRATIVE INFORMATION**

Completion Date of Approved Jurisdictional Determination (AJD): September 15, 2020

ORM Number: SAC-2019-01975

Associated JDs: N/A

Review Area Location<sup>1</sup>:

State: SC City: Goose Creek County: Berkeley County

Center Coordinates of Review Area: Latitude 32.9647° Longitude -80.0047°

**II. FINDINGS**

**A. Summary:** Check all that apply. At least one box from the following list **MUST** be selected. Complete the corresponding sections/tables and summarize data sources.

- The review area is comprised entirely of dry land (i.e., there are no waters or water features, including wetlands, of any kind in the entire review area). Rationale: N/A or describe rationale.
- There are “navigable waters of the United States” within Rivers and Harbors Act jurisdiction within the review area (complete table in section II.B).
- There are “waters of the United States” within Clean Water Act jurisdiction within the review area (complete appropriate tables in section II.C).
- There are waters or water features excluded from Clean Water Act jurisdiction within the review area (complete table in section II.D).

<sup>1</sup> Map(s)/Figure(s) are attached to the AJD provided to the requestor.

<sup>2</sup> If the navigable water is not subject to the ebb and flow of the tide and included on the District's list of Rivers and Harbors Act Section 10 navigable waters list, do NOT use this document to make the determination. The District must continue to follow the procedure outlined in 33 CFR part 329.14 to make a Rivers and Harbors Act Section 10 navigability determination.

<sup>3</sup> A stand-alone TNW determination is completed independently of a request for an AJD. A stand-alone TNW determination is conducted for a specific segment of river or stream or other type of waterbody, such as a lake, where independent upstream or downstream limits or lake borders are established. A stand-alone TNW determination should be completed following applicable guidance and should NOT be documented on the AJD form.

<sup>4</sup> Some excluded waters, such as (b)(2) and (b)(4), may not be specifically identified on the AJD form unless a requestor specifically asks a Corps district to do so. Corps Districts may, in case-by-case instances, choose to identify some or all of these waters within the review area.

<sup>5</sup> Because of the broad nature of the (b)(1) exclusion and in an effort to collect data on specific types of waters that would be covered by the (b)(1) exclusion, four sub-categories of (b)(1) exclusions were administratively created for the purposes of the AJD Form. These four sub-categories are not new exclusions, but are simply administrative distinctions and remain (b)(1) exclusions as defined by the NWPR.

**D. Excluded Waters or Features**

Excluded waters ((b)(1) – (b)(12))<sup>4</sup>:

Exclusion Name	Exclusion Size	Exclusion <sup>5</sup>	Rationale for Exclusion Determination
Excluded Water Wetland A	0.66 acres	(b)(1) Non-adjacent wetland	This wetland is not contiguous or directly abutting an (a)(1)-(a)(3) water. The wetland continues off-site where it flows into a roadside ditch designed to convey stormwater from Luken Road. Therefore, this wetland is determined meet the (b)(1) non-adjacent wetland criteria. Please see Section (C) for more information.

**III. SUPPORTING INFORMATION**

**A. Select/enter all resources** that were used to aid in this determination and attach data/maps to this document and/or references/citations in the administrative record, as appropriate.

Information submitted by, or on behalf of, the applicant/consultant: *Wetlands Determination PIN 2520000042 1.33 Acre Parcel Luken Road Goose Creek, Berkeley County, South Carolina dated December 2, 2019.*

This information (*is and is not*) sufficient for purposes of this AJD.

Rationale: *The information submitted refers to a storm water ditch and an isolated wetland, per a USFWS NWI Map. However, a figure displaying these features was not submitted as part of the information submitted and no data sheets were submitted. The information submitted does correctly refer to a previous wetland determination from this office and provided sufficient information for the location of the site.*

Data sheets prepared by the Corps: *WETLAND DETERMINATION DATA FORM – Atlantic and Gulf Coastal Plain Region dated December 10, 2020.*

Photographs: *(NA, aerial, other, aerial and other) SAC-2019-01975 Delineation Photos dated December 10, 2020*

Corps Site visit(s) conducted on: *December 10, 2020*

Previous Jurisdictional Determinations (AJDs or PJDs): *Wetland Determination (N/R 88-750) dated November 17, 1988.*

Antecedent Precipitation Tool: *provide detailed discussion in Section III.B.*

USDA NRCS Soil Survey: *Title(s) and/or date(s).*

USFWS NWI maps: *Submitted as part of the December 2, 2019 Wetlands Determination report.*

USGS topographic maps: *Title(s) and/or date(s).*

**C. Additional comments to support AJD:** According to the Navigable Waters Protection Rule, a ditch cannot render an otherwise isolated wetland an “adjacent wetland” and thus jurisdictional on that basis, unless the ditch itself is a tributary. Therefore, Excluded Water Wetland A is determined to be a non-jurisdictional (b)(1) excluded water and not subject to regulation under Section 404 of the Clean Water Act.
